Join the ARNOLD Group and support our dynamic team as a

## Senior Supervisor / Installer (m/f/d)

**Full-time for technical insulation systems in power plants and industrial applications worldwide**

### Your responsibilities:

- Independent installation of our insulation systems
- Modification and adjustment of insulation on-site
- Reading and implementing documentation and blueprints
- Ensuring quality, construction properties and compliance with client specifications
- Supervising and coordinating installation teams and construction sites, as well as documenting and reporting on projects

### Your qualifications:

- Completed vocational training as an insulator
- Practical skills and experience in installing insulation systems
- Enjoyment of travel and willingness to work abroad in a team for several weeks at a time
- Strong focus on quality and responsibility
- Good English skills (spoken and written); German skills are an advantage
- Flexibility and a passion for the job

### We offer:

- A diverse and interesting role with high levels of responsibility in a motivated, innovative team
- A long-term perspective and a secure employer
- The opportunity to earn significantly above average on international installation projects
- Targeted personal and professional development opportunities
- Short communication channels and the implementation of your own ideas through a flat and family-like company structure
- Additional attractive corporate benefits, such as company e-bikes, employee discounts, and more...
