

The ARNOLD Group is an internationally operating, family-owned company with around 550 employees worldwide. As specialists in Technical Insulation and On-Site Machining, we support leading industrial companies around the globe by reducing downtime and ensuring the reliable operation of critical production facilities.

To strengthen our international service team, we are looking for experienced Field Service Mechanics (m/f/d) with expertise in steam and/or gas turbines for our projects in the Porto region, Portugal.

## Field Service Mechanics (m/f/d)

for gas and / or steam turbines in Portugal (Porto region)

### Your responsibilities:

- Carrying out major overhauls, inspections, and maintenance activities on steam and gas turbines
- Performing preventive and corrective maintenance tasks
- Assembly, disassembly, and alignment of rotating equipment
- On-site troubleshooting and technical support for our customers
- Executing national and international field service assignments

### Your profile:

- Several years of professional experience working with steam and / or gas turbines
- Ability to read and understand technical documentation and drawings
- Willingness to travel internationally and work on-site at customer locations
- Good technical English skills; additional languages are an advantage
- Category B driving licence

### What we offer:

- Permanent employment with an internationally successful family-owned company
- Exciting technical projects across Europe and worldwide
- Competitive salary package with attractive travel allowances
- Professional training, development opportunities, and long-term career prospects
- Working within a highly specialised and supportive international team

### Interested?

Become part of the ARNOLD Group and contribute your expertise to challenging international projects. For further information, please visit our website or contact us directly.
