

ARNOLD GROUP

Are you looking for new challenges as an insulation Installer (m/f/d), enjoy working independently, and want to take on responsibility while exploring the world? Then join the ARNOLD Group!
The ARNOLD Group is a globally operating, family-owned company with approximately 550 employees worldwide.
As specialists in technical insulation for gas and steam turbines, marine insulation, and exhaust gas insulation systems, we provide customers across various industries with flexible, customized solutions.
To strengthen our international installation teams, we are looking for an experienced and motivated

Insulation Installer / (Senior) Supervisor (m/f/d)

Full-time for technical insulation systems in power plants and industrial applications worldwide

Your responsibilities:

- Independent installation, modification, and adjustment of our technical insulation systems at customer sites worldwide
- Installation of insulation systems for gas and steam turbines, power plants, and industrial applications
- Reading and implementing technical drawings, blueprints, and installation documentation
- Ensuring high-quality installation work in accordance with technical requirements, safety standards, and customer specifications
- Supervising, coordinating, and supporting installation teams on international construction sites
- Monitoring project progress, documenting installation work, and reporting to project management
- Working hands-on alongside your team whenever required
- Travelling internationally and working on customer projects for several weeks at a time

Your qualifications:

- Completed vocational training as an insulator or a comparable technical qualification
- Several years of proven hands-on experience in technical or industrial insulation installation
- Ideally, experience with insulation systems for turbines, power plants, industrial equipment, or marine applications
- Experience in supervising installation teams or coordinating construction sites is an advantage
- Ability to read and understand technical drawings, blueprints, and installation instructions
- Willingness to travel worldwide and work abroad for several weeks at a time
- Good English communication skills, both spoken and written; German skills are an advantage
- Independent, reliable, and quality-conscious working style
- Strong hands-on mentality, flexibility, and a passion for technical work
- Ability to work effectively in international teams and take responsibility on-site

We offer:

- A diverse and challenging position with a high level of responsibility in a motivated, international team
- Exciting installation projects at customer sites around the world
- A long-term career perspective with a secure, family-owned employer
- Attractive compensation with the opportunity to earn significantly above average through international installation assignments
- Targeted professional development and further training opportunities
- Short decision-making processes, flat hierarchies, and the opportunity to contribute your own ideas
- A supportive, family-like company culture with an international working environment
- Additional attractive corporate benefits, including company e-bikes, employee discounts, and more

Interested in joining our team? For further information, please visit our website or contact us directly.
We look forward to receiving your application and getting to know you!
